

# UPM ProFi® Patio

## LOW MAINTENANCE DECKING

UPM ProFi Patio enables The DIY builder to create a durable and stylish stone look solution for any garden deck, patio, terrace or marina.

Advanced recycled raw material

Specially toughened edges combined with a hard wearing non-brushed surface makes a low maintenance decking with superior impact strength.

UPM ProFi Patio is easy to install and requires no special tools. The installation system has been designed for ease, speed and a perfect finish.

Representing the next generation of wood plastic composites made from recycled material UPM ProFi Patio does not contain any harmful materials.

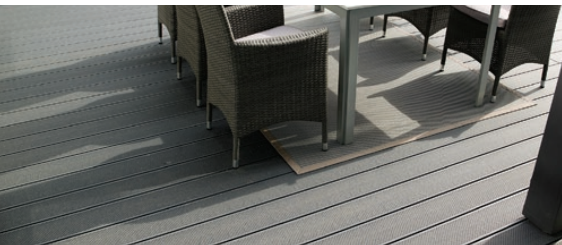

UPM ProFi Patio is a quality product made in Germany and Finland.
